**Green Meadows<sup>SM</sup>**

**A Planned Community originated by Pioneer Hi-Bred International, Inc.**

2014 10/12

Green Meadows, as part of the greater Pioneer Planned Community, lies within a shrinking latent area close enough to Des Moines to take advantage of urban center amenities and concurrently reap the benefits of a rural setting. It offers a controlled overall community plan that includes inward flexibility and the opportunity to grow with the community and contribute to its future potential and success; a concept unavailable in typical subdivision developments. We welcome your participation.
